**REQUEST FOR APPROVAL OF DRAWING CORRECTION
UNDER 37 C.F.R. §1.83(a)**

Assistant Commissioner for Patents
Washington, D.C. 20231

Commissioner:

Applicant respectfully requests that the Examiner approve the drawing correction of FIG. 3 that was initially filed in the above-identified patent application. Applicant has corrected FIG. 3 so that data buffer 340 comprises a plurality of operatively distinct data stores e.g. (Data Store₁ through Data Store_P). The proposed changes are shown in redline in the amended drawing. The proposed changes are supported by the originally filed specification which teaches that data buffer 340 in FIG. 3 "has operatively distinct stores for buffering data units according to their particular characteristic, such as priority. For a switch supporting P levels of priority, data buffer 340 preferably has P stores for separately buffering data units for each particular priority". (page 8, lines 2-3). Applicant therefore respectfully submits that no new matter has been added and requests that the amended drawing be entered and the objection withdrawn.

Application No. 09/006,777

Applicant encloses herewith substitute drawing sheet including corrected FIG. 3, showing the proposed correction in red ink. Applicant respectfully requests that this Request be approved and the objection to the drawings be reconsidered and withdrawn.

Respectfully submitted,

CHRISTIE, PARKER & HALE, LLP
